

Plantation in HITC and JCHITC

Members of the Corps are reminded to refrain from damaging trees and plant within the camp site area.

Spectacles and Sunglasses

The wearing of sunglasses including variable-tint lenses (photo-chromic) with uniform is not permitted unless the need for wear of such eyeglasses has been certified by the medical authorities and for medical reason. The wearing of sunglasses with uniform is permitted only when the person is performing driver's duty or in high/low event activities under hazardous sunlight.

Spectacles and sunglasses, when worn with uniform, should be in conservative appearance. Eccentric or conspicuous eyepieces are prohibited. Chains, bands, or ribbons should not be attached to eyeglasses; however, eyeglass restraints are authorized for safety purposes during training, but must be of conservative style and design.
